ZYGOMA EDUCATION WEEK

LEVEL
03

Speaker
Dr. Sepehr Zarrine

- Location: Ho Chi Minh City
- Date: 02 - 05 December 2026

Expected Number of Participants:
25 Dentists

Contact:

HCMC: 0949967909 (Mr. Thien)
Hanoi: 0349586838 (Mr. Hung)
Danang: 0934950203 (Mr. Chien)

SPEAKER

DR. SEPEHR ZARRINE

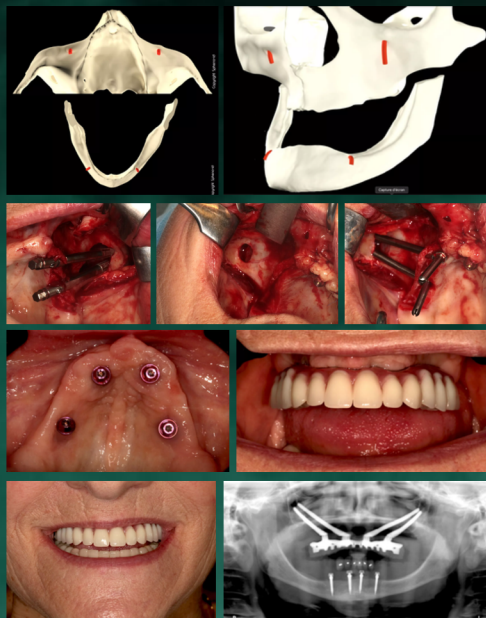

- Specialist in Surgery, Prosthodontics and Bone Grafting
- European Master's Degree in Dental Implantology and Maxillofacial Surgery
- Chairman of ITI France
- International Speaker
- Founder of Surgical School: Surgitech Studies
- Member of the ITI Zygoma Consensus Expert Group
- Member of the three-expert team that developed Straumann's new SZI Zygomatic Implant, together with Bedrossian & Aparicio
- Contributor to two books published by Quintessence: The Immediacy Concept by Edmond Bedrossian & Traitements prothétiques et implantaires de l'édenté total 2.0 by Marwan Daas

COURSE OBJECTIVES

- Understand the new anatomy-based classification and corresponding surgical options
- Learn how to adapt surgical techniques to different patient anatomical features
- Strengthen anatomical knowledge relevant to zygomatic surgery
- Practice key surgical steps on cadavers
- Minimize the risk of complications and improve surgical accuracy
- Master complete prosthetic workflow, from immediate loading to final prosthesis
- Effectively integrate digital workflow to full-arch rehabilitation treatment

- This 4-day course on zygomatic implant rehabilitation is designed to provide participants with in-depth knowledge and hands-on experience in this advanced technique.
- Throughout the course, participants will be introduced to a new anatomical classification system and the corresponding surgical approaches for specific clinical situations, illustrated through detailed descriptions and surgical videos. These techniques will then be applied during hands-on sessions. The course also places particular emphasis on managing potential complications and developing strategies to prevent them.
- The prosthetic component, which is critical to successful rehabilitation, will be covered in detail—from immediate loading with provisional prostheses to final prosthetic rehabilitation. The integration of digital tools into the clinical workflow will also be addressed to improve accuracy and efficiency.

AGENDA

AGENDA

WEDNESDAY - 02/12/2026

National Hospital of Odonto-Stomatology, HCMC

8:00 - 8:30	Guest check-in	
8:30 - 10:00	Zygomatic implant indications	<i>Dr. Sepehr Zarrine</i>
10:00 - 10:30	Tea break	
10:30 - 12:30	Pre-recorded Quad Zygoma surgical case presentation, with live surgical simulation and real-time commentary	<i>Dr. Sepehr Zarrine</i>
12:30 - 13:30	Lunch	
11:30 - 17:30	- Clinical demonstration - Hands-on practice on dental models	<i>Dr. Sepehr Zarrine</i>

AGENDA

THURSDAY - 03/12/2026

Pham Ngoc Thach University of Medicine

8:30 - 13:30	- Clinical demonstration - Cadaver hands-on practice	<i>Dr. Sepehr Zarrine</i>
13:30 - 14:30	Lunch	
14:30 - 16:00	Treatment philosophy for All-on-X / ProArch / Zygoma: principles and evidence	<i>Dr. Sepehr Zarrine</i>
16:00 - 16:30	Tea break	
16:30 - 17:30	Treatment planning based on radiographic and clinical findings	<i>Dr. Sepehr Zarrine</i>

AGENDA

AGENDA

FRIDAY - 04/12/2026

National Hospital of Odonto-Stomatology, HCMC

8:00 – 13:00	Live Patient Case 1: Conventional zygomatic implant surgery	Dr.Sepehr Zarrine
13:00 - 14:30	Lunch	
14:30 - 16:00	Surgical workflow: conventional vs. guided surgery	Dr.Sepehr Zarrine
16:00 - 16:30	Tea break	
16:30 - 17:30	Application of digital workflow in full-arch implant / zygomatic implant treatment	Dr.Sepehr Zarrine

AGENDA

SATURDAY - 05/12/2026

National Hospital of Odonto-Stomatology, HCMC

8:30 -12:30	Live Patient Case 2: Zygomatic implant surgery using dynamic navigation	Dr.Sepehr Zarrine
12:00 - 14:30	Lunch	
13:30 - 14:30	Final prosthetic workflow Selection of prosthetic materials	Dr.Sepehr Zarrine
14:30 - 15:00	Tea break	
15:00 - 17:30	• Complications • Clinical discussion with participating dentists • Certificate ceremony	Dr.Sepehr Zarrine
